Parent Album, includes 20- 4 x 6 photos in an album	\$150
You may purchase additional photographs shown on the Online store	

Pre-Wedding Photo Session

If you wish to add a pre-wedding photo session to any package that does not include it , you may do so. This is usually done prior to your wedding date with your choice of photo then displayed at your reception.

Wedding Album DVD

You choose your favorite wedding photos and music, and we put them together on a Photo-Video DVD, which includes titling, special effects and music. It can then be played either on your computer or DVD player. The DVD Wedding Album may be chosen as your choice of wedding album included with any Premier Package above or added as an additional option at the rate of \$10.00 per image.

Parent Album

You may add a 20 photo 4x6 parent album to any package. Parents decide on their favorite 20 photos and we put them together in a Parent Album.

Trading Photographs in Packages

Regardless of which package you decide on, you are free to trade up in sizes based upon the credit of photographs you normally get. An example, 2 5 x 7s can be traded for 1 more 8 x 10 and so on based upon their credit value as individual print prices. You are not, however, allowed to trade for smaller size photographs.

Like To Customize Your Package More?

If you don't see a package you like or would like to make changes just give us a call, and we will see what we can do.
